

VARICOR® /// MODULAR WASHROOM SOLUTIONS

**A FEAST IS SERVED!**

WITH THE IDEAL INGREDIENTS FOR YOUR PLANNING  
SUCCESS

**WASHTOP®**

Imagine you could simply submit your sketch and a washroom solution would be built to your specifications.

**INCONCEIVABLE?**

**WASHTOP®**

ONE RECIPE.  
TWO INGREDIENTS.  
ENDLESS VARIATIONS.

No matter what requirements and ideas you have for your project, with **WASHTOP®**, you can quickly and easily serve up consummate washroom solutions that are guaranteed to be to your clients' taste.

WASHTOP® is the unique combination of panels and moulded bowls made of the copolymer-bonded solid-surface material VARICOR®. The panels can be tailored in length, width and even material thickness to any spatial situation and its specific requirements. A multitude of wash-bowl variants satisfies every demand in terms of design, shape and size. Over forty finishes in our standard product range ensure visually delectable finishing touches.

**WASHTOP®**

“WASHTOP® adapts to my requirements. Not the other way around.”

/// Whatever you're hungry for, we'll serve it up!

/// **Your benefits with WASHTOP®:**

- + Freely configurable
- + Variable dimensions
- + Seamless
- + Hygienic
- + Easy care
- + Functional
- + Uniform material
- + Fully repairable
- + Resistant to disinfectants
- + DIN EN 14688 certified

## “FOR A SMALL APPETITE.”

**In tight spots, or where space is at a premium, WASHTOP® fulfils your need for a clear concept that is tailored to the spatial setting.** You are given a compact solution that fully meets your planning requirements in terms of attractive design, cost-effectiveness and sustainability.

The system's length and depth, and the position of the basins, are tailored to fit precisely into the available space. The continuous washbasin shelf optimises the usable area, and functional elements such as paper disposal, towel rails or paper dispensers can also be integrated. The seamless transition from the shelf to the basins, wall connection and skirt facilitates cleaning and ensures maximum hygiene.

It goes without saying that the moulded basins fully comply with the requirements of DIN EN 14688, for sanitary appliances.

# WASHTOP® – SOLUTIONS FOR EVERY TASTE.

**Enjoy the versatility of WASHTOP®.** Whether as a single or multiple system, free-standing or in a niche installation, with oval, round or rectangular basins, in a trendy “halfpipe” layout or with concealed drain channel – with WASHTOP® you can find the perfect design for every setting.

**Our application examples will whet your appetite.**

“Straight from sketch to substance. That’s how I see it.”

## “FOR BUFFETS.”

### /// WASHTOP® in service

- + Hotels
- + Restaurants
- + Public institutions
- + Office and administration buildings
- + Stadiums
- + Nurseries
- + Residential bathrooms
- + Clinics
- + Cruise ships + yachts
- + Passenger planes
- + Passenger trains

**WASHTOP® also serves up its almost infinite variety of possibilities in places where a lot of public traffic has to be “served” in a short time.** Multiple-washstand units, tailored exactly to requirements and available space, enable purpose-oriented solutions without restricting the creative scope you’re asking for.

WASHTOP®’s specific properties are particularly beneficial in buildings with high traffic loads. Seamless connections make cleaning easier, and the robust material ensures a long service life with consistent material quality and appearance.

# ONLY THE BEST INGREDIENTS FOR EXQUISITE COMPOSITIONS.

**The combination of the mineral filler aluminium trihydrate, or ATH for short, and a high-quality resin mixture results in a product with outstanding material properties: the unique solid-surface material VARICOR®.** The perfect recipe for all your different ideas.

VARICOR® offers the best conditions for tried-and-tested functionality and maximum material safety. The material is entirely non-porous and fully coloured. The sum of the material properties offers you a number of advantages – both with the moulded parts in many standard and bespoke designs and with panels for worktops and wall coverings.

## ADD A SPOONFUL OF COLOUR. AND CREATE A TREAT FOR THE EYES.

**With the extensive VARICOR® colour palette, you have a wide range of plain, granulated and marbled colours to choose from within the WASHTOP® collection.** So you can easily set special colour accents, to “put the cherry on the cake”.

With bicolour washroom solutions, in which basins and shelves are used in different finishes, you have an interesting alternative at hand that leaves other materials in the sector far behind.

You can also create bespoke colour concepts with VARICOR®. Just tell us the finish you want, and your requirements – we shall be happy to make you an offer.

# FOR PROJECTS THAT BREAK OUT OF THE MOULD.

**It's something that regularly crops up: a request you can't carry out on your own.**

But we're here for you. By choosing the WASHTOP® concept, you gain access to our long-standing partner network. So you can realise even unusual projects quickly and easily.

Perhaps, for example, you need a complex design for a wash-basin area combined with the corresponding vanity unit below, mirror cabinets, and lighting and control elements to form a complete washroom concept? Our strong network offers you all that.

## /// Our service for you:

- + Support throughout the entire project
- + Custom-made products
- + Complete washroom concepts
- + Strong network of partners
- + After-sales service

## “FOR TRUE GOURMETS.”

**Bespoke design room by room: whether straight, rounded, curved or cornered is to your taste, thanks to the design variety of WASHTOP®, everything is set for you.**

For example, special basin models mean that barrier-free wash places can be produced in accordance with DIN 18040. In addition, our unique Colorline system offers you the possibility of seamlessly incorporating CI elements or internationally valid instructions for use into the material. This ensures that no dirt traps are created, as is usually the case with stickers. The motive or the writing always remains visible instead of fading or even disappearing over time due to abrasion.

“It’s good to have a choice. Even better when I’m free to decide.”

# ADVANTAGES TO SAVOUR

**WASHTOP® is far more than a material or a standard product group.**

**WASHTOP® stands for support throughout your entire project.**

Thanks to their many years' experience in the property sector, our project consultants and network partners can give you all the support you need. This starts at the planning stage of your building project and goes right through to on-site measurements, prompt delivery and expert installation in the building. With our after-sales service, we are at your side with help and advice even after the project ends.

As the sales division of the Geberit Group, the market leader in the sanitary sector, and as a sister company of Keramag, the leading manufacturer of sanitary ceramics, VARICOR® stands for mature products with ISO 9001-certified quality assurance that you can trust in every respect.

Extensive certification in a wide range of applications, from clinics and nurseries to railways and aviation, attest to the exceptional material properties of VARICOR®. In the WASHTOP® concept for washroom solutions, these have been implemented in a unique way.

“WASHTOP® is ready to help you with your planning. Just send us your request.”
